

Print multiple pages in a file to fit a single sheet of paper, usually Letter or Tabloid laser prints.

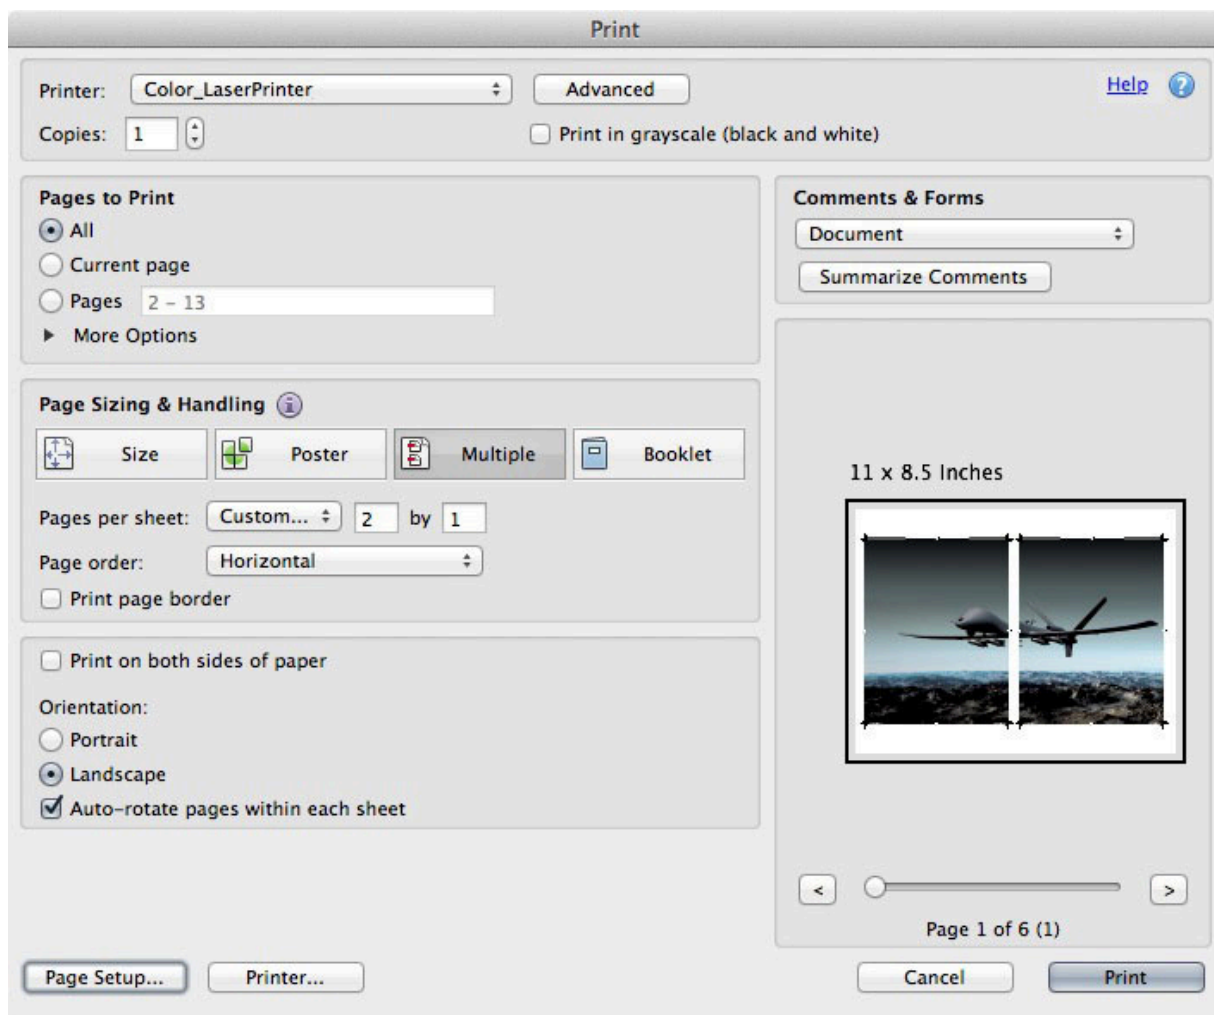

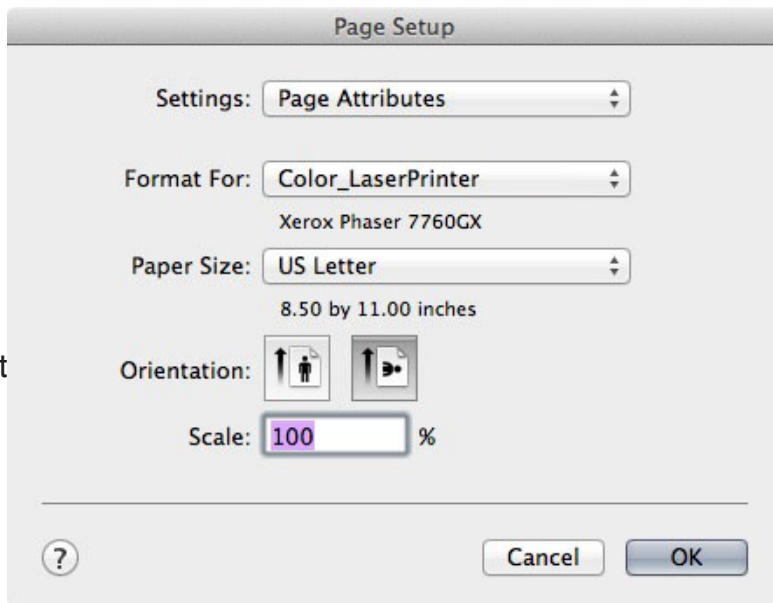

Create a suitable PDF from your original file.

Open the PDF in Adobe Acrobat.

In **Page Setup**, choose the printer on which you want to print,

Choose the appropriate paper size,

Choose the orientation to match how you want the pages to fit on the sheet.

In the Print dialog, click **Multiple**,

Type the number of pages you want to fit on the sheet, in this case **2** horizontally and **1** vertically

Auto-rotate the pages to fit.
