### KU Museum Studies

2024 - Co-Chair of Master Degree Committee for Isabella Dino in Museum Studies.

### KU Honors Mentorship Program

As KU Honors Faculty Fellow, I am assigned to mentor KU Honors and University Scholars students from all disciplines across campus. This robust mentorship program provides a path for the KU Honors students to expand their breadth of

knowledge through research, study abroad, and honors courses outside of their discipline, but related to their interests. The program “brings talented students together in honors classes and seminars to benefit from mutual interests and association. It brings students and faculty members together in a teaching and research environment that ensures high academic achievement and standards.”

### **D. Invited Speaker and Guest Reviewer**

The architecture profession has a history of inviting professionals and peer members to share their expertise in seminars, exhibitions, gallery reviews, invited lectures, and midterm and final architecture design studio reviews. This is an impactful, invaluable, and time-consuming effort that allows the dissemination of expertise and knowledge in multi-level and interdisciplinary methods. This unique dissemination of knowledge allows dialogue amongst students, professionals, and faculty with whom they may rarely interact. Depending on the level, context, and content, lectures take 2 - 3 hours, architecture reviews take 2 - 5 hours, and exhibition reviews take 4 - 6 hours. I have been invited nationally and internationally to participate in architectural reviews and exhibition juries since 2005. Listed below are these activities only since 2018, the time of my appointment as associate professor at the University of Kansas.
